AFTER HOURS

ALTHOUGH ARIEL AND KELTIE ARE NOT TWINS, YOU CAN'T REALLY ARGUE WITH DOUBLE THE FUN. SO WITH THAT IN MIND, LET'S JOIN THESE LOVELY LADIES AS THEY TAKE US ON A TOUR OF A FEW OF THE STELLAR PRODUCTS THEY'VE FOUND AT MR. BODYKIT.

DOUBLE VISION

Being able to see better is worth investing in, particularly where these two are involved. Ariel and Keltie can tell us a thing or two about angel eyes, so listen up now, you hear!

These One-Piece Projector Headlights are brand new for 1987-1993 Mustangs. You can get rid of your old six-piece headlight mess and upgrade to this smooth, new one-piece design. These replacement headlights use your existing wiring harness and connectors for a quick smooth install.

Got a newer pony? Well Mr. Bodykit has got plenty of light options for you. How about a pair of One Piece Angel Eyes for your 1994-98 Mustang? These lights are available in four different color options, as well as with or without the amber reflector.

New Edge Mustangs (1999-2004) will look edgier than ever with these Generation 3 Projector Headlights with LED turn signals and chrome housing. All headlight conversion assemblies are made from high quality material with OEM factory fit and all necessary wiring and connectors for easy installation.

ROUND THE WORLD

How can you go anywhere without a set of wheels? But, you gotta know that if you want company, you'd better be stylin' fine. Our tour guides would like to suggest a few options for your consideration.

On the right is Toxic Wheel's 20-inch that also supports a staggered fitment, with 9- and 10-inch widths available. On top you'll see the classic FR500 wheel in a show chrome finish - this one at 18x9-inches. What would any Mustang wheel collection be without a Bullitt style rim? Here, the ladies have picked a chromed 20x9-inch version for you to check out, but other sizes, along with black and charcoal finishes can be ordered if the full bling ain't your thing.

Aside from these examples, Mr. Bodykit carries more than 30 other wheel designs, all for Mustangs and at the very best prices in the industry.

KELTIE MARTIN

Keltie Martin says that the things that start her engine include pretty eyes, humor, laughs, abs, and smiling. Well, those things and the great outdoors, as well. She told us, "I love being outside! Surfing, swimming, skydiving and horseback riding are some of my favorite things to do!" Well, that is something that she has in common with Ariel. Perhaps these two are twins under the skin, after all. About her background, Keltie mentioned, "I am a mutt ... Mexican, Syrian, Irish, German, English ... a little of everything." As far as her preference in cars, Keltie likes the more exotic ones, such as a Mercedes SLR, which probably explains why she also prefers the more exotic Mustang products as well.

LEARN TO FLY

Ariel and Keltie believe in bodily improvements – in an automotive context, of course. Here, they have picked out some of their favorite pieces for you.

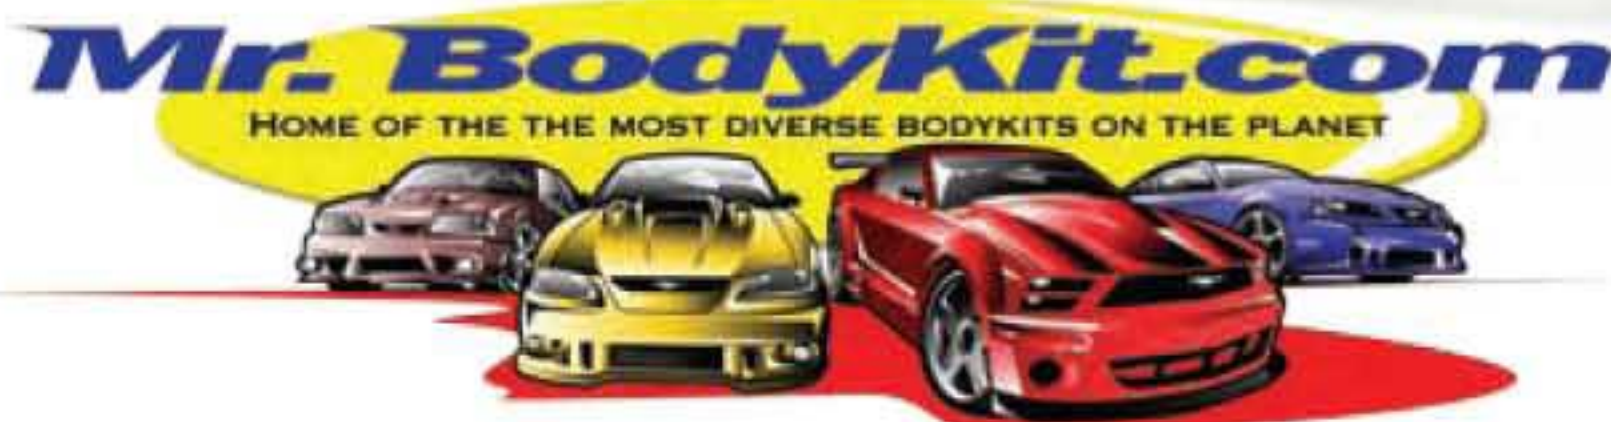

Now, they've both got a hand on this functional Cobra R Wing that is designed to add downforce to your Pony for better stability and traction. Should we mention that it just looks just plain 'Bad Ass' too. Versions are available to enhance any year of Mustang all the way from 1987 through 2008.

Looking out as you drive, you'll surely want to see the cutting edge, aggressive design of a Mach 2 hood that fits your 1987-2008 Mustang. Constructed from hand-laid fiberglass and high quality "ISO" resin, this Mach 2 hood will look great on any stock Mustang or complement any BodyKit front or full kit out there. It certainly has our girls smiling. And you'll probably be smiling too if you also add one of these 'Cobra R' style bumper covers, designed as a direct fit for any 1994-08 Mustang and made from durable urethane.

MODEL

ARIEL ELIZABETH POLIN

Ariel Elizabeth Polin comes from a family that certainly gets around. She credits her unique characteristics to a blend of Spanish, Dutch, Ukrainian and Irish influences. If you're wondering whether she might like your ride, it sounds like Ariel is pretty easy to get along with. "I like anything loud, fast or modified. Stock is boring," she told us in no uncertain terms. And in the spirit of this month's 'twin' After Hours, Ariel reflects the dual-natured Gemini influence – on one hand she loves anything to do with nature such as hiking and camping, and she loves going to the beach and lakes. On the other hand, Ariel says that "I also LOVE street bikes and motorcycles, bad words and tattoos ... basically anything that can get you hurt, killed or in trouble. I am game!" That sounds like a walk on the wild side, or perhaps something more like a wind sprint.
